

IHS COUNTRY RISK

# Every Point on the Planet

**Precise, one-year risk scores for war, terrorism, civil unrest, and political violence for every 500m<sup>2</sup> point on the planet.**

Excel, FTP, or API delivery for integration of dynamic risk ratings with large volumes of proprietary data.

## Who uses Every Point on the Planet?

### How?

---

#### Insurance

- Calculate political violence risk exposure across a schedule or entire book of millions of locations
- Inform risk selection and technical pricing
- Compare risk between schedules or within a portfolio
- Identify attractive premium opportunities where perceived risk levels constrain capacity allocation
- Support reinsurance negotiations

---

#### Risk Management

- Understand and monitor political violence risk distribution across the business and in new ventures
- Identify highest risk locations to inform risk transfer decisions
- Determine country risk levels by specific asset location
- Support insurance negotiations by calculating your policy's risk coverage effectiveness
- Communicate risk metrics across the enterprise

---

Quantify and monitor risk by exact location rather than generic country scores

Benchmark risk exposure across portfolios with thousands of assets

Determine risk-return tradeoff

Discover untapped opportunities

---

Building on the legacy of Global Insight, WEFA, DRI, WMRC and Exclusive Analysis, IHS Economics & Country Risk supports more than 1,400 organizations with easy data access, accurate forecasting and innovative workflow solutions. With 50 years of experience and more than 200 full-time economists, country risk analysts and consultants, we help the world's leading companies enter new markets quickly and safely, navigate uncertainty and prepare for every outcome.
