

Energy Subscription Product(s) Special Terms

A) BEP, if ordered, provides special discounts for bundled packages. Discounts provided under BEP shall cease at the end of the initial term of the Agreement. IHS reserves the right to discontinue the BEP program at any time.

B) Fees for companies with oil and gas production shall be based on BOEPD classification and fees for non oil and gas production companies' shall be based on Peer Group Classification ("PGC"). Fees are subject to annual adjustment based on a review of the PGC and BOEPD classification at least sixty (60) days prior to each successive anniversary date of this Order Form. Fees are also subject to change if Client's PGC or BOEPD classification changes due to merger or acquisition.

C) For Drilling Wire on the Web TM (if ordered), Client may use and utilize the Product in the United States for the authorized number of users at a single physical office address indicated above on the Order Form. At its option, Client may pay corporate fees to allow all its physical office addresses to access the Product.

D) For IHS Enerdeq ^R Browse and Query Software ("Enerdeq") (if ordered), Client may use and utilize Product(s) from IHS's website, at www.ihs.com/energy. Although IHS shall use all reasonable efforts to provide access to the Product ordered on this Order Form with Enerdeq, from time to time Product(s) may be inaccessible or inoperable for various reasons, including periodic maintenance procedures or repairs which IHS may undertake from time to time. Current scheduled downtime is from 12:00 AM to 1:00 AM Mountain Standard Time each day of the week.

E) Client will be responsible for informing IHS of the names of authorized users and shall also provide to IHS subsequent user additions and deletions via written notification in a timely fashion and will be responsible for any unauthorized use resulting from a failure to notify IHS of a change in authorized users.

F) Discounts provided under the Small Independents Initiative shall cease at the end of the initial term. The Annual Price shall then revert to the then current list price

G) If ordered, cancellation of the licenses granted hereunder shall not require Client to purge the Spatial Layers described below provided Client (i) is in compliance with the Agreement and (ii) continues to maintain an active license to the underlying Product for which these Spatial Layers are provided. For the avoidance of doubt, should licenses to the underlying Product be cancelled or terminated for any reason, the Product along with the Spatial Layers shall be required to be purged in accordance with the Agreement.

i: Well and Production Data, required for Spatial Layer delivery, will be licensed under separate agreement.

ii: License entitles Client to Monthly delivery of designated US Spatial Layers.

iii: License entitles Client to Daily delivery of the Activity Layer via FTP, if applicable.

iv: Field Map layers may be licensed as a stand-alone product and do not require Well and/or Production licenses.

H) If ordered, licenses to the "U.S. 3-D Seismic Surveys" Product, are comprised of the location and attribute information of certain 3-D Seismic lines in the U.S. Should Client submit the location and attributes of 3-D Seismic lines in its possession, Client shall be entitled to the Data Release Participant Discount as set forth on the previous page. However, should Client fail to provide IHS with its 3-D Outlines within 90 days of the Effective Date of the attached Order Form, Client will not be entitled to the Data Release Participant Discount and will be liable to IHS for the Data Release Participant Discount listed on Order Form (if any).

I) If Client agrees to the release of its own 3-D Seismic Survey outlines by indicating Yes in the space provided below, Client agrees to submit to IHS outlines of the locations, names and all other attribute information of any and all 3-D Seismic Survey data lines in which the Client has any proprietary interest. Said outlines are to be submitted in hardcopy or electronic map with underlying land grid, or in electronic form by latitude/longitude or state plane coordinates, and IHS will incorporate the outlines into the Product. By submitting 3-D outlines to IHS, Client grants IHS permission to use and utilize such 3-D outlines in IHS's Products without restrictions of any kind and Client warrants that it has all right and title necessary to grant such rights to IHS.

Release of Client's 3-D Outlines: Yes No N/A
